An Industrial Center on San Francisco Bay

The growth of Richmond as an industrial city has been steady and consistent over a period of thirty years, beginning with the selection of this city as the western terminus of the Santa Fe Railroad. This was followed immediately by the construction of the first units of the Standard Oil Company's refinery, now the company's largest plant. Other industries came in the wake of these until today Richmond is the premier industrial center of Contra Costa county, the largest city in the county, and one of the important manufacturing communities of the western states.

These developments have not taken place without good reasons. These might be enumerated as follows: 1. Strategic location, central as regards the Pacific coast and the eleven western states, hence an excellent place for distribution of manufactured goods to the markets of the region. 2. Complete transportation facilities—highways, railroads, waterfront and modern shipping facilities. 3. The p pres-

RICHMOND MERCHANTS' ASSOCIATION

RICHMOND, CALIFORNIA

"Richmond, Industry's Western Goal"

To Whom It May Concern:

The Executive Board of the RICHMOND MERCHANTS' ASSOCIATION considers the POLK RICHMOND CITY DIRECTORY of vital importance to our city and favors advertising in it.

This endorsement, however, in no way pledges or binds the members of the Association, as they are at liberty to use their own judgment in the matter.

By way of information, we may add that the POLK DIRECTORY COMPANY now maintains a Directory Library of approximately one hundred volumes in the Chamber of Commerce Headquarters here and this branch is one of a chain of three hundred and fifty libraries in which the RICHMOND CITY DIRECTORY will be found.

INTRODUCTION

R. L. POLK & CO., publishers of the Richmond Directory, as well as many other city, county, state and national directories, present to subscribers and the general public, this, the 1932 edition of the Richmond Directory, which also includes a directory of Martinez.

Confidence in the continued growth of Richmond's wealth, industry and population, and in the advancement of its municipal and social activities, will be created as sections of this directory are consulted, for the directory is a mirror truly reflecting Richmond to the world.

The enviable place occupied by R. L. POLK & CO'S directories in offices, stores, libraries and homes throughout the country, has been established by rendering the best in directory service. With an unrivaled organization, and having the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Richmond Directory will fulfill its mission as a source of authentic information pertaining to the community.

Population

The estimated population of Richmond is 22,051, based on the number of individuals' names in the alphabetical section of the directory, with due allowance for children and for women whose names are not listed separately from those of their husbands. Territory immediately adjacent, which is part of the city, as far as business and social life are concerned, is included in the directory. The population of Martinez is estimated at 9092.

Five Major Departments

The several essential departments are arranged in the following order:

THE BUYERS' GUIDE of Richmond, pages 13 to 32, printed on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Richmond and vicinity. These pages will be found particularly interesting and instructive to substantial purchasing factors. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best and, as such, merits a survey by all buyers anxious to familiarize themselves with sources of supply. The community's activities, in many interesting phases, are authentically pictured. In an ambitious and progressive city like Richmond, the necessity of having this kind of information immediately available, is very great and, frequently, pressing. General appreciation of this fact is evidenced by the liberal support the city directory enjoys in the many fields which it serves.

The Buyers' Guide for Martinez will be found preceding Martinez alphabetical list of names.

THE ALPHABETICAL LIST OF NAMES of residents, business firms and corporations for Richmond is included in pages 33 to 303. A similar list for Martinez is contained in pages 397 to 478.

THE DIRECTORY OF HOUSEHOLDERS, TENANTS OF OFFICE BUILDINGS AND OTHER BUSINESS PLACES, AND STREET AND AVENUE GUIDE for Richmond covers pages 390 to 305. In this section the names of the streets and avenues are arranged in alphabetical order; the residences and business houses are arranged numerically under the name of each street and avenue, and the names of householders and business concerns are placed opposite the numbers. Home property ownership is indicated by the character "o", placed immediately after the name of the householder. A similar guide for Martinez is contained in pages 479 to 500.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 501 to 575. This department lists the various manufacturing, mercantile and professional interests of the whole community in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community. "The Directory is the common intermediary between Buyer and Seller." As such it plays no small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory than through any other medium."

THE NUMERICAL TELEPHONE DIRECTORY for Richmond is given in pages 577 to 605 and Martinez in pages 606 to 616.

Community Publicity

The directory reflects the achievements and ambitions of Richmond, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the directory in Directory Libraries, where they are readily avaliable for free public reference and serve as perpetual and reliable advertisements of Richmond and vicinity, for business men, everywhere, realize that the city directory represents a community as it really is.

The Richmond Directory Library

Through the courtesy of the publishers of the Richmond City Directory, a Directory Library is maintained in the offices of the Richmond Chamber of Commerce for free reference by the general public. This is one of the 450 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the city directory as an advertising medium, with assurance that it will bring a commensurate return.

R. L. POLK & CO., Publishers.

Richmond
Statistical Review

Name of City: Richmond, California.
Slogan or sub-phrase: Richmond—Industry's Western Goal.
Form of Government: City Council—City Manager.
Population: 20,093.
White population is 75%.

RICHMOND . . .

Industry's Western Goal

The city of Richmond enjoys an enviable position among Pacific Coast cities owing to the large number of old established industries and the new ones recently attracted. The city is industrially diversified, a condition which insures a steady payroll and prosperity for its citizens.

The most recent important industrial acquisitions have been the Ford Motor Company's assembling plant and the Filice and Perrelli cannery, both situated on the newly developed inner harbor where a shipping and industrial zone has been reclaimed from mud flats during the last few years. The Ford Company's plant is one of the largest in the West and is designed to turn out 400 cars a day and employ 2,000 men.

The Filice and Perrelli Cannery Company has established its headquarters in Richmond and has built a plant employing 700 persons.

Many Eastern manufacturers are showing an interest in Richmond as a possible site for a new Western plant since the investigation of such leaders as Henry Ford have proved that Richmond offers one of the best locations on the Pacific Coast for industries. Its slogan is "Industry's Western Goal."

Already Richmond is the fourth payroll city in California with an annual payroll of $15,000,000. It is the fourth port in California in point of actual tonnage handled. Within its borders it produces 14 per cent of the water borne commerce of San Francisco Bay.

The history of the city really begins in 1900 when the Santa Fe Railroad located its Western terminal here. In 1901 the Standard Oil Company established its refinery at Point Richmond with 80 employees. Now the refinery has grown until it employs 3,000 men throughout the year and has an annual payroll of $6,000,000. It produces more than 600 separate products from California crude petroleum, everything from asphalt to the finest of medicinal oils. Lubricants, greases,

gasoline, kerosene, vaseline, floor polish and many other products are found in the long list that comes from the great plant at Richmond.

Richmond is situated on deep water and at the same time is served by two transcontinental railroads, the Santa Fe and the Southern Pacific. It therefore enjoys the advantageous and convenient shipping service on the coast, and its industries are prepared to serve the domestic and foreign markets as economically as any other Pacific Coast city.

Richmond shares with other cities on the east shore of San Francisco Bay an ideal all year working climate. It possesses an attractive home atmosphere and good residential tracts where homes may be acquired by working men at reasonable cost. It has large modern school buildings with adequate playgrounds and highly trained staffs of teachers to equip the younger generation for the struggle of life.

Richmond has been found by its residents to be an ideal home city and is annually attracting many new families who show no tendency to move elsewhere.

Theatres, well managed shops with large and attractive stocks add to the list of features that make the city attractive to the home dweller.

Shipping is largely over the Parr Richmond wharf on the outer harbor and the Parr Richmond wharf on the inner harbor. Both facilities are operated upon a joint agreement between the Parr Terminal Company and the City of Richmond. The plan is satisfactory and the city receives a substantial annual revenue.

Richmond is one of the cities included in the East Bay Municipal Utility District, and the benefits of an unlimited supply of pure mountain water from the Mokelumne River nearly 100 miles away through a new water system. This is strictly a municipal enterprise, financed by public bond issues and managed by a board of directors elected by the people. Henry A. Johnston of Richmond is one of the directors.

A large part of Richmond's success is attributed to the remarkable cooperation which exists between the principal civic groups. The Chamber of Commerce is highly organized and devotes itself exclusively to the attraction of new industries. The city council works hand in hand with the Chamber and every matter of civic importance is jointly reviewed by these two bodies.

When You Borrow a Directory

You are not only stealing a little of your friend's valuable time but you are using a portion of his capital for your business. You are wasting some of your time, and you miss the satisfaction of the man who stands on his own feet. Better buy your Directory.

FIRMS... Represented in This Section

ARE EASY to find whether you remember the correct name or not, because they are classified by business and have put their advertisements in the natural place for searchers to find.

HOW TO MAKE APPLICATION for Water Service

When moving into a new house the first requirement necessary is Water Service.

It is no trouble to get this service. You may come to any one of the District's four business offices, as shown below, and personally sign for meter connection—you may write your request for water—or if, in the confusion of moving, it is not convenient to write or call, a telephone message will bring a service man to you at your home.

It is the desire of the District to make it easy and convenient for you to get water service. All business offices are instructed to comply promptly with every reasonable request.

If you are a newcomer to this community you will be asked to make a deposit which may be returned to you after one year with interest at 6%.

The East Bay Municipal Utility District is anxious to serve you in every possible way, and the development of this broad policy of handling orders is part of the service to you.

CITY, COUNTY, STATE AND NATIONAL DIRECTORY PUBLISHERS
604 Mission Street San Francisco, Cal.

A natural by-product of the Directory business is the compilation of Mailing Lists. If interested, ask for our Catalog, "Mailing Lists That Pull."—R. L. Polk & Co.

"More Goods are Bought and Sold Through the Classified Business Lists of the Directory Than Any Other Medium on Earth"

. *Good* .
BUSINESS
INSURANCE

Your advertisement in the City Directory with proper business listings insures your business against loss of trade.

The manufacturer or business institution that overlooks this fact is not building for the future.

The City Directory is active 365 days every year—let it serve you as it does others.

Our representative will be pleased to call and explain the value of reference advertising.

Martinez Statistical Review

Name of City: Martinez, California.
Slogan: "Every Industrial Advantage."
Form of Government: Councilmanic.
Population: 9,092.
White population is 9082.
Colored population is 10.
Predominating nationalities in city are American.
County Seat of Contra Costa County.
Altitude: 8 to 90 feet.
Assessed Valuation: $6,044,280 with $1.12 tax.
Parks number 3 with 2¼ acres.
City's bonded debt is $200,875.
Financial: 3 banks with total deposits of $3,701,076; resources $5,331,670.
Post Office receipts of $42,823.66 (1931).
Telephones in Service: 1,742.
Church Buildings: 7.
Building and Construction: Value of building permits in 1929, $508,411.
Industry: Number of establishments, 6; employing 1,957 men and 39 women; paying wages of $3,000,000 annually.
Trade: Territory (Retail) serves 18,000 people within the trading area covering a radius of 15 miles.
Climate: Mean annual temperature 70 degrees F.; average annual rainfall 15 inches.
Newspapers: 2 daily, 1 weekly.
Hotels: There are 4 hotels, with total of 230 rooms. Newest hotel was built in 1926.
City served by S. P.; A. T. & S. F.; W. P. railroads.
Amusements: 2 theatres seating 1,850 people; tennis, swimming, bowling, fishing, boating, etc.
Hospitals number 2 with 206 beds.
Education: Number of schools, 6; including 1 high school, 1 parochial and diocesan school. Number of pupils in public schools, 1,641; in private schools, 45. Total of all teachers is 72. Value of all school property, private and public, approximately $976,000.
There are 172,359 volumes in the libraries of the city.
City Statistics: Total street mileage, 16.4; with 13 miles paved. Capacity of water works (municipal), 1,500,000 gallons, and value of plant estimated at $250,000. Fire department employs 3 men with following equipment: 1 auto, 2 engines, 1 hose and chemical wagon, in 1 station house. Police department has 4 men with 1 station and 2 pieces of motor equipment.

A Glimpse of Martinez

By GEO. L. PASCOE
Secretary Martinez Chamber of Commerce

Here is a gem set in the rolling hills of Contra Costa County, facing the dancing waters of Carquinez Straits, flanked on either side by protecting hills that reach a height of over 900 feet, with the beautiful and productive farms of Alhambra Valley as a background. "A thing of beauty is a joy forever," and it is truly a spot to gladden the heart of man. The Martinez climate has never been advertised as "best by government test," but that is probably because the government has never tested it. The average annual rainfall is only about 15 inches, but is sufficient to produce fruits which draw top prices in the eastern markets year after year.

It is a charming little city of 9,000 inhabitants—and they are a happy and contented 9,000. For their city is prosperous, living conditions are of the best, and they have the advantages of living in a small town, with its greater freedom and fresh air and sunshine and community spirit, and yet they are so close to Oakland and San Francisco that they have the added recreational facilities offered by the big cities. In short, they have the advantages of both the small town and the big city without the disadvantages of either. Martinez, named after a former Spanish commandant of the San Francisco Presidio, has the charming feature enjoyed by many California towns—a combination of the romantic atmosphere left by its colorful Spanish founders with the freshness and modernity of the thriving American city of 1932. An example of this: John Swett, the noted educator, and John Muir, the naturalist, both chose it as the spot in which to spend their last years. On the other hand, it has all the appurtenances of the modern city: many miles of paved streets, a city-owned water system supplied by the new billion-gallon Chenery reservoir, a new $240,000 junior high school, pending improvements in public parks and playgrounds, an airport, metropolitan shopping facilities within the city, and a new $375,000 County Hall of Records.

Furthermore, the city has for 17 years been growing steadily and surely along sound lines. Not since the coming of the Shell Oil Company's huge refinery in 1915 has there been a real boom in Martinez. Yet those fifteen years have witnessed a remarkable growth; an article of this type holds no place for statistics, but one typical indication of the truth of the foregoing statements lies in the fact that the population has increased 68% in the last ten years, as shown by the Federal census. Countless other statistics could be brough forth to show that

this growth has not been of the boom type, but has been a steady climb over the fifteen-year period. And at present the economic status of the city is altogether sound, for it is resting upon sound economic foundations with potentialities which, beyond a shadow of doubt, promise a real future.

Perhaps a few words of explanation as to the nature of these economic foundations are in order. Regardless of how attractive a city may be from the residential standpoint, it must have some economic support in the form of an assured income to depend on; its residents cannot live parasitically on each other. This support must be either agricultural, industrial, or of the tourist type. The tourist type of support is altogether uncertain, and has the disadvantage of being seasonal; agriculture is fairly sound, and gives reasonable assurance of a good income in most years; but to be thriving and successful, a city must have some industries. And to hope to grow very far beyond its present economic status, it must have attractions for still more industries to locate there in the future. The future of a city is, to a large extent, directly proportional to its desirability for future industrial development.

Where does Martinez stand on this score? First of all, it is a well known fact that the present tendency is for large industries to get out of the large cities, which have higher land values, and more crowded conditions. They are seeking the smaller towns which have lower land values combined with suitable geographical conditions, transportation facilities, and proximity to large markets. All of these factors are centered in Martinez to a remarkable degree. There are, in or near the city, several hundred acres of land ideally suited for industrial sites. It is served by the main lines of two transcontinental railroads, much of it is fronted by the deep water of Carquinez Straits, there are five paved highways radiating out of the city, there are at least 1,500,000 people living within fifty miles of Martinez and there is abundance of water, natural gas, electricity and refined oils direct from the nearby refineries. To recapitulate, Martinez is directly in the path of the big industrial developments of the next few years; industries mean money coming into the town, which means a better city to live in and to invest in.

Martinez' economic foundations are not alone industrial. It has an agricultural background which is one of the most prosperous in the state. Excellent soil of the sandy loam and clay type, coupled with generally favorable rains and many months of sunshine every year, make it possible for the farmers in the famous Alhambra Valley and Vine Hill and Pleasant Hill districts to command top prices for their products every year in the eastern markets. And where do these farmers spend their

money, and what community do they call their own? Martinez, for it is the shopping center of two-thirds of the county. It is this out-of-town trade which largely accounts for the extraordinarily fine stores which are to be found in this city of 9,000.

Some cities are notably "payroll" towns; they have plenty of industry to support them, but are inhabited by a lower class of workers, and generally do not have satisfactory living conditions. Other cities which are near some metropolis may have a large percentage of communters and may be known as "residential" towns. Each have their advantages and disadvantages. In these respects, Martinez is both and neither. It has a payroll of over $3,000,000 a year.

And yet, on the other hand, it is as choice a spot to live in and to raise a family in as can be found anywhere in this broad land. Despite its modernity and unmistakable tone of up to date prosperity, there is a romantic something about it, an atmosphere reminiscent of the quiet, sleepy Spanish days that this age of speed and efficiency has not been able to efface. This is especially noticeable in the late afternoons when the great golden sun, who has, in his daily ride across the sky, been nurturing the hundreds of beautiful flower-bedecked gardens, begins to hide his face behind the western hills. Then it is that the gentle breeze comes drifting in from the bay, the air is heavy with the scent of myriad kinds of flowers, a sudden quieting in the regular buzz of activities takes place, and one has but to shut his eyes to imagine himself back in the somnolent halcyon days when Senor Martinez ruled this region as Rancho Boca de la Canada de Pinole. There are still a number of historic landmarks to add to the impression: old adobe houses which housed the Spanish, caves which were formerly hiding places for Mexican murderers, and the tule land which sometimes concealed California's famous bandit, Joaquin Murietta. If one but stops for a moment to glance back into the history of this old city, he is enthralled by the secrets of the past that it will yield.

In closing, the writer cannot resist the temptation to mention some of the new projects in Martinez—just indications of the confidence that is placed in the city. Some of these are: a new $240,000 junior high school, a new $40,000 Masonic Temple, a new $40,000 laundry, a new $375,000 hall of records, new residences, a new $75,000 hospital, a new $4,000,000 linoleum factory 5 miles from the city, and various new stores of a high type. Come and take a look at Martinez. There is not a better spot in which to invest, and a visit will repay you.

POLK'S MARTINEZ

Directory of Householders Occupants of Office Buildings & Other Business Places

INCLUDING A COMPLETE

Street and Avenue Guide

1932

Copyright, 1932, by R. L. POLK & CO. OF CALIFORNIA

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol (o) following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The CITY DIRECTORY

is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. A modern, up-to-date method of getting what you want.

Llew. Williams, Jr., Cincinnati
J. Martin Gardner, Toronto
H. A. Manning, Springfield
R. W. Lovell, Montreal
Wilson H. Lee, New Haven
G. D'W Marcy, Boston
D. W. Bowman, Akron

General Offices: 524-528 Broadway, New York City

The Association of North American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employees.

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

All members of this association have subscribed to the following
STANDARDS OF PRACTICE

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under such headings as best describe it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what directories and reference media contain; to study public needs and make directories and reference media supply them; to revise and standardize methods and classifications so that what is wanted may be most easily found, and the directory and reference media be made to serve their fullest use as business and social reference books and directories of buyer to seller and seller to his market.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publication.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers as well as on the number of copies circulated.
8. To cooperate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of directories and reference media in public service and then to strive in every legitimate way to promote that function.

$100.00 REWARD will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or "fake" Directory.

City Directory Uses « « «

1. Sales Promotion:

a. Sales analysis—

Comparing present amount of business obtained in a given area with possible maximum business in that area. The Householders' Directory shows the classes of business located on a street, in office buildings, in sections of the city, etc. In checking up salesmen's calls on business in an assigned territory the directory presents a picture of how many places have not been reported upon, and shows a ready list of prospects for your goods or service.

b. Leads—

Determining parts of city best suited for increasing business. The alphabetical listing for each business and professional concern, shows the names of the owners, partners or officers.

c. Selected districts—

Determining parts of city best suited for increasing business. The Householders' Street Directory shows the exact type of business or residences along each street of the city—and shows if the occupant of the home is the owner.

d. Building mailing lists and direct mail campaigns—

1. List of local people (Neighborhood List) within a given radius of Business location. On a city map, draw a circle to include the territory you wish to cover in your neighborhood list. From the map you can obtain the name of each street with intersections in the circle you have drawn. In the Householders' Street Directory you will find the correct name of the occupant at each house, or building on these streets. This will give you a 100% list of the territory desired.
2. Lists of business houses and the professions—The business directory at the end of the book classifies every business and profession according to the nature of the business. Complete lists such as doctors, lawyers, printers, garages, auto dealers, furniture stores, contractors, etc., can be found in this classified directory section.
3. Vocational Lists—Such as clerks, stenographers, telephone operators, carpenters, salesmanagers, purchasing agents, laborers, etc. The alphabetical directory shows the occupation of every individual in the city.

   Run over the alphabetical pages—check marking the persons whose occupation is the one wanted for your list. This will give you a complete and accurate list for the entire city.

2. Credit:

a. Verifying customer's statements and information.

b. Information about customer—

Correct name, address, where employed and wife's name is given in the alphabetical directory for every individual. Whether he rents or owns home is usually shown in the Householders' Directory.

c. Determining character and stability of applicant for credit—

This directory gives his present occupation and residence. By referring to each yearly edition of the directory for the past few years, it is quickly determined whether the applicant holds the same job and residence, or flits from one job to another and one residence to another. After the new directory is delivered to you keep the old one on file. Never destroy it. You'll find old ones invaluable in checking your past records.

3 1143 00661 8590

« « for Every Business

d. Identifying applicant and applicant's references—

The alphabetical directory gives complete information for each individual. (See information about customer.) The references given by the applicant for credit, can be identified in the same manner—who they are, what position they hold, etc.

e. Collecting accounts—

Tracing and locating debtor. Locating other members of debtor's family or relatives.

3. Delivery and Shipping:

a. Routing—laying out route for delivery—

Use description of streets in the Householders' Street Directory, with an indexed map of the city for locating and laying out delivery route.

b. Obtaining correct addresses—

Where numbers on shipping instructions are not plain, or only street is given, the correct number can be found in the alphabetical or Householders' Street Directory.

c. Locating streets, buildings, un-numbered houses—

A full description of every street, with location, is given in the Householders' Street Directory. When the address given is an apartment or building without street and number being given, the alphabetical section will give you the correct street and number for that building. Many buildings on streets are not numbered—or badly numbered—making it difficult to find the building wanted. The Householder's Street Directory shows the location of the buildings along the streets.

4. Purchasing:

The complete classified business section in the back of this directory makes available all sources of goods wanted; assists in selection of most reliable and satisfactory firms to deal with; the nearest companies to facilitate delivery of purchases, and determining the proper official of firm to deal with. The standard classified headings are complete and show all firms under the proper headings. There are many special headings marked with an asterisk (*) showing firms in display type. These firms are progressive and desire a more complete classified representation of their products.

5. General Information:

The Alphabetical Directory lists—Persons' full name and correct spelling, occupation, where employed, street address of residence, if married gives wife's name, head of house or roomer, renting or owns home. Lists all corporations showing officers, all partnerships showing partners, all individual businesses showing proprietor. All public officers, clubs, associations, etc. The Householders' Street Directory shows every street—a description of its location, all occupants on each street, the ownership of the property and all intersecting cross streets.

The Classified Business Directory shows all business in the city arranged under heading most descriptive of the nature of the business.
